Hi All,

I'm a new subscriber to this list and I have a question that I would normally look in the FAQ for, but since one doesn't exist yet, I thought I'd give it a go.

Where can I find some plans for building some simple tube-based rigs? I would imagine that old QSTs are a good source; could someone recommend a few projects/issues I might look for?

Private email is OK and thanks in advance,

-Patrick N10CJ
